

Optimal Solutions for Con-Block Industry

We 'AUTOMATE' your blocks

 Dymantech

WE HELP TO GROW YOUR BUSINESS

Since 1995, Dymantech Machinery Co.,Ltd has manufactured parts for concrete block industry. Today, Dymantech is operated by two divisions Dymantech-Mould and Dymantech-Automation. The former supplies high-grade steel moulds, and the latter expands your production capabilities and add to the capacity of your block machines by automatic accessories.

What We Offer

- Technical Information & Support
- Moulds for Block Machines
- Parts & Accessories for Block Machines
- Block Machines Upgrade & Maintenance
- Reconditioned Block Machines for Sale

Auto Batching & Mixing Control

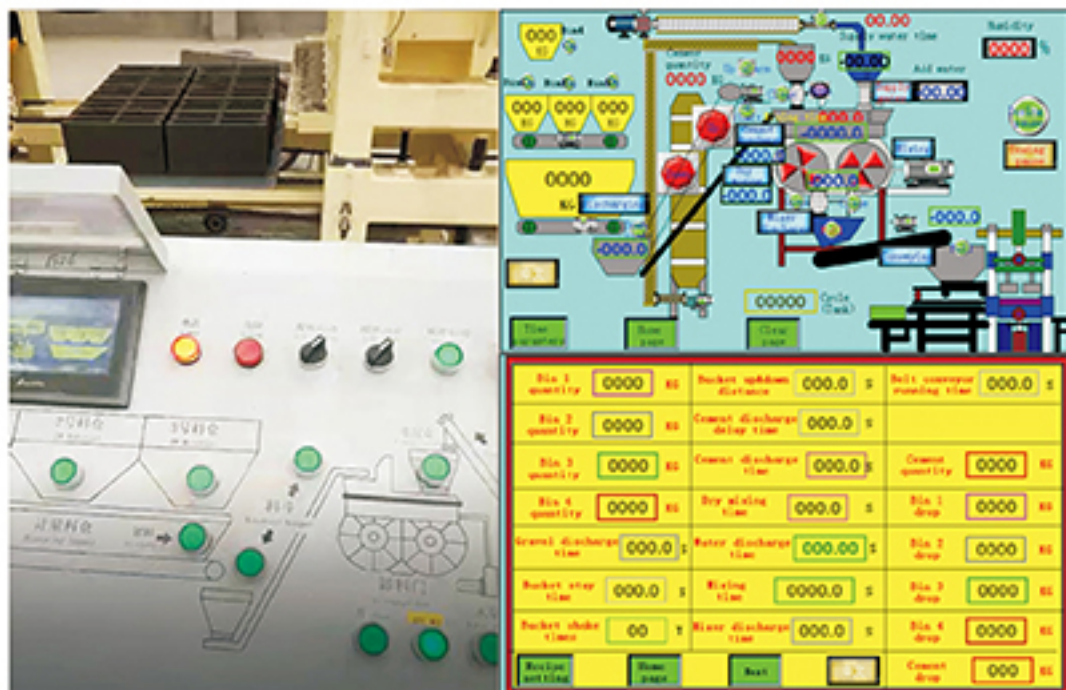

Accurate & Reliable

Dymantech can provide optimal system according to customers' requirements, which can help you to supply qualified mixture for block production line.

Key Features:

- High accuracy and static weight-checking
- Special software for weight data process
- Automatic weighing and differentiating weight value
- Easy to link with whole system by RS485 communication port
- Humanistic safe voltage design

Reconditioned Block Machines

1

Shift to workshop for recondition

2

Disassemble detachable parts

3

Assemble new components

4

Install new control cabinets

5

Install new hydraulic system

6

Test the machines before dispatch

Parts for Block Machines

Touch screen

PLC program

Batching controller

Converter

Relay module

Amplifier board

Brush

Eccentric shaft

Gears

Pulley

Rubber buffer

Air bag

Springs

Mixer reducer

Belt

Mixing parts

Solenoid valve

Proportional valve

Pump

Hydraulic cylinder

PVC pallet

- High strength
- Wearable
- Waterproof
- Corrosion resistant
- High cost-effective
- Excellent planeness
- Precisely same thickness
- Lifetime 6 years
